### Tuition Deposit Details

A Tuition Deposit, equivalent to the child's monthly tuition, is due upon enrollment each year and held throughout the child's entire enrollment. Tuition Deposits are returned\* after the child has completed their final month of school and their final tuition payment has been made.

The Tuition Deposit amount that is held throughout your child's enrollment at The Treehouse will always match the amount of your monthly tuition. Therefore:

- If your monthly tuition amount decreases during the school year, your account will be credited the difference from your Tuition Deposit that Treehouse is holding.
- If your monthly tuition amount increases during the school year, you will be charged the difference for your Tuition Deposit that Treehouse is holding.

*\*Tuition Deposits will be returned as long as The Treehouse's Withdrawal Policy has been adhered to. If any balance remains on the account after the child's last month of school has been completed then that amount will be deducted from the Tuition Deposit prior to being returned. **Your Tuition Deposit is not applied to your first nor your last month's tuition payment.***

**Please note the following:**

**The 23-24 School Year**

The school year begins on September 5th, 2023 and runs through June 14th, 2024.

**Summer Program**

We host summer camps in July & August. This is a separate program that you must register your child form if you wish them to attend. Your school year enrollment does not roll over into the summer; nor does it roll over into the following school year. You must re-enroll your child each school year and register them for summer camps if you wish for them to attend in July & August. Your school year enrollment contract ends on the last day of the school year in June.

**Toilet Training Requirement for Oak Classroom**

Your child must be toilet trained in order to enroll in the Oak Classroom (for ages 3-6). We understand that every child begins toilet training at their own pace and wish that we could accommodate children who are still working on this skill; however in order to maintain a healthy teacher:student ratio and provide optimal care we are needing to have all children toilet trained in this classroom.

## Financial Aid
